# Creating a Zoom meeting in EchoVideo

echo360®

The Zoom integration feature within EchoVideo gives instructors the ability to schedule on-the-fly Zoom meetings, either directly from their EchoVideo library or a Course section.

Create a Zoom meeting from the library

1. Navigate to your EchoVideo library.

2. From the Create button, select Zoom Meeting.

3. Name the meeting then select Submit.

4. You can choose to either copy the Zoom meeting link or immediately start the Zoom meeting as a Host.

Create a Zoom meeting from the course section

1. Navigate to your EchoVideo course section.

2. From the Create button, select Zoom Meeting.

3. Name the meeting and ensure that the "Also publish recording as a lesson in this section" switch is on, then select Submit.

4. Again, you can choose to either copy the Zoom meeting link or immediately start the Zoom meeting as a Host.

5. You will also see that a new class has been created in the course section with a Zoom badge.

6. Learners can select the "Info" link from the class to join the meeting.
